An enthusiast solving real-world problems using engineering skills with passion for learning, leadership and collaboration. Interested in **software development** and **testing**.

EDUCATION

Sunny Hills High School, Fullerton, California

PROJECTS

Jellyfin — Media Provider Application - https://jellyfin.org/

Ongoing Development

Jellyfin is the media solution that puts *you* in control of your media. Stream to any device from your own server, with no strings attached. Your media, your server, your way.
Tools: C#, Reactjs, Vuejs

Home — Developer's Portfolio Website Template - https://jacob.beckerle.xyz

Ongoing Development

Created a *portfolio webpage* using Reactjs and GitHub APIs hosted over GitHub pages. Entire project was kept easy to configure and edit.
Tools: Reactjs.
